

## How to Get Published

Sharon A. DeVaney and Sophia Anong

This workshop will help authors prepare their research for submission to a peer-reviewed journal. Two important steps are: to find the journal that is the best fit for their research topic and to obtain the Manuscript Submission Guidelines. The presenters will discuss the differences in preparing qualitative and quantitative manuscripts, writing meaningful implications, and responding to reviewers. The presenters are Sharon A. DeVaney, Editor of the *Family & Consumer Sciences Research Journal*, and Sophia Anong, Assistant Professor at the University of Georgia.
